

KLOVE serves so many people with a lifeline of hope that is not duplicated by any other radio station. They serve up substance, beautiful music, words of encouragement, the way to a better life, all things mostly missing from other media. It serves our community by raising the standards for behavior, re-enforcing behavior that benefits all mankind. The news they broadcast is fair, the positive and the negative.

If KLOVE is displaced, my car and others will become a more dismal place, a place where patience and goodwill is not encouraged, where people on the verge of making a bad decision will not hear via the air waves that there are better choices to be made. Lives are saved, lives are changed though KLOVE. Without KLOVE, those changes for the betterment of society will not happen.

Our community is a better place because of KLOVE.  
I am a better person because of KLOVE's constant message. They don't offer mindless entertainment, they offer teaching, and resources for people in spiritual trouble, financial trouble, marital trouble.

PLEASE DON'T let this station be displaced. IT'S A UNIQUE STATION WITH SO MUCH TO OFFER. IT OFFERS THE HOPE THAT IS IN CHRIST JESUS, WITHOUT WHOM WE WOULD ALL BE LOST.
